REWE Group

The REWE Group is one of the leading trade and tourism groups in Europe. With a major focus on its huge retail business, the company generated a total turnover of around 62 billion euros in 2019. Founded in 1927, REWE Group operates 15,000 stores with 360,000 employees in 21 European countries.

The sales lines include REWE, REWE CENTER, REWE CITY and BILLA supermarkets and consumer stores, the discounter PENNY as well toom and B1 Discount Baumarkt DIY stores. There are also the innovative convenience stores (REWE To Go) and e-commerce activities REWE Lieferservice, Zooroyal, Weinfreunde or Kölner Weinkeller.

Besides its core activities in the retail market, REWE Group entered the travel and tourism sector in 1988 when it purchased several travel agencies. REWE Group then continuously expanded its touristic activities in the last decades: it bought ITS and DER in the 1990s and more recent acquisitions would be the Exim Group and the tour operating business of Kuoni Group. Today, the touristic activities of the REWE Group, consolidated under the umbrella of the DER Touristik Group, are considered to be its second most important core business.

DER Touristik Group

Each year, DER Touristik Group welcomes 8.4 million customers. In order to meet every imaginable demand, the company group relies on a wide range of travel offerings: it can cater to any target group as it unites 20 well-known brands (e.g. Dertour, ITS, Kuoni, Apollo, Exim Tours and Fischer) and about 30 travel specialists (such as Kirker and Manta Reisen) under one roof.

Get to know our Group: www.dertouristik.com

Proximity to the customer takes a top priority at DER Touristik Group. The tour operator programme has something to offer for every customer. With its large number of stationary sales outlets and online travel portals, DER Touristik Group is the European market leader in travel sales. Online sales brands such as der.com or prijsvrij.nl as well as the tour operator websites form the basis of the digitalisation strategy.

With four hotel brands and the Playitas sports resort in Fuerteventura as well as the Swedish charter airline Novair the DER Touristik Group ensures that every travel wish will come true.

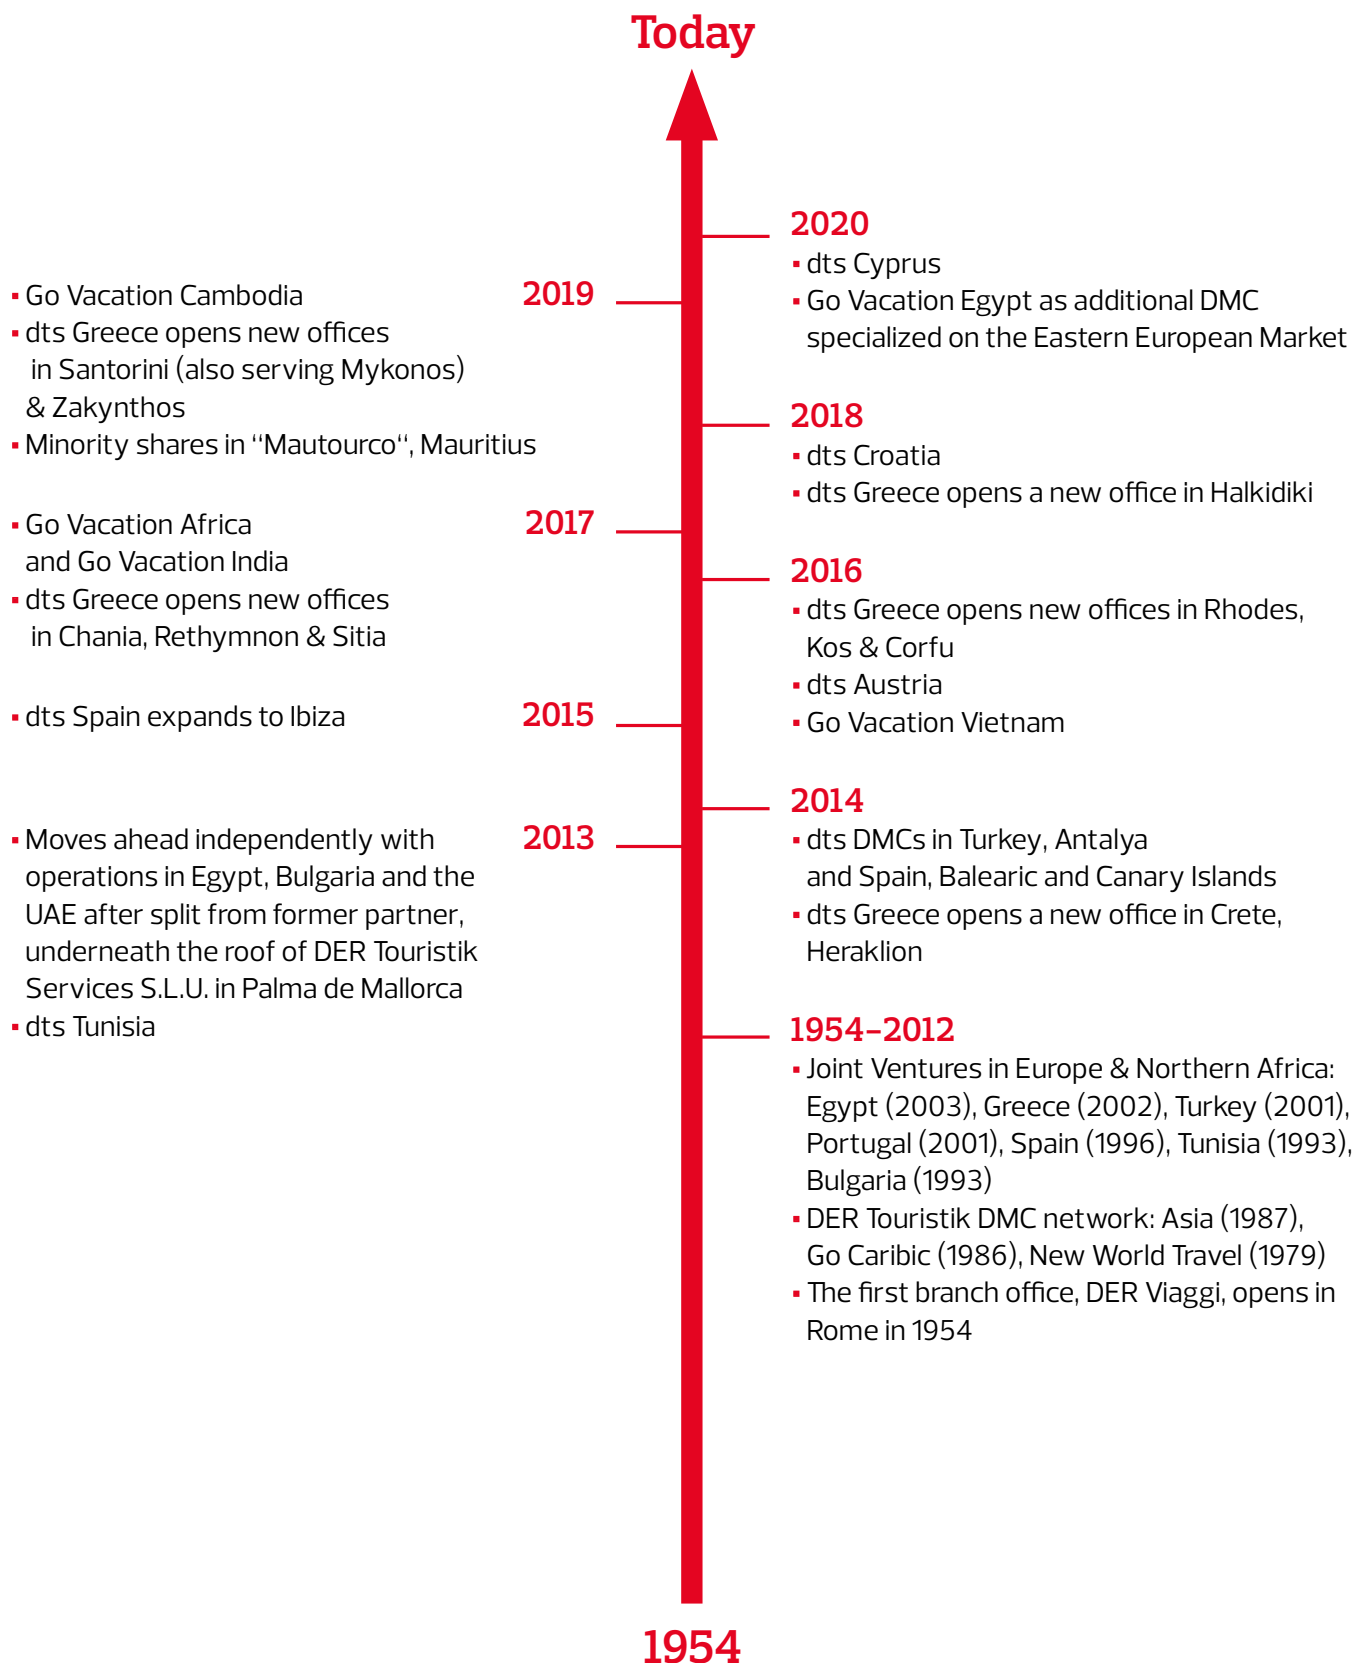

With a cooperation network of **23 destination management companies (DMCs)** and 67 affiliated offices, DER Touristik Group is on site for its customers in tourist destinations.

DEVELOPMENT OF OUR NETWORK

One of the key drivers of the DER Touristik strategy is to strengthen and to build the DMC network

We offer anything from high volume-based operations to specialists & tailor-made arrangements, including groups, tours, cultural round trips, MICE-packages, or even our own Nile cruises.

We welcome guests from all over the world, with the majority travelling from Continental Europe, Northern Europe, and the UK. When they go on vacation, we are there to look after them. In addition to our on-site customer support teams, we have built well-established local partnerships to selected hotels and suppliers, to complement us in delivering excellent services for our clients. Our portfolio is not limited to long-haul destinations, but reaches across the globe, showing an equally strong presence across Mediterranean and North African regions. This, as well as our relationships, alliances and connections bundled into the DMC Network as one global partner, under a single roof, is our key to success!

Kalin Sutev

Managing Director Bulgaria
destination touristic services

Welcome to Bulgaria!

Our story began back in 1993 as the first travel agency of the German tour operator ITS in Bulgaria. We have been working in trustworthy partnership with the local tourism industry for almost 25 years now promoting the beauty and uniqueness of our country.

Visit Bulgaria and your days here will be bathed in sunlight and the pervasive aroma of the sea. Small charming alleyways and quaint little shops on the seashore offer timeless tranquility.

Every time you open that small bottle of rose oil, the aroma will bring you back to the beautiful Rose Valley of Kazanluk. Taste the one and only Bulgarian yogurt in the country where it first originated.

The unique Bulgarian cuisine combines the best of several worlds – oriental tradition, European influences and exotic Balkan tastes. The Mystery of the Bulgarian Voices is part of Planet Earth's message to the Universe on board of Voyager, it will make you realize that we are connected in so many mysterious ways.

Foued Lejmi

Managing Director Tunisia
destination touristic services

Welcome to Tunisia!

Tunisia is North Africa wrapped into one bite-sized package with vast Sahara dunes, mammoth ancient ruins and exotic cities that are home to a sprawling tangle of souks.

dts Tunisia started operation in November 2013 as a new DMC in the destination. In a short period of time, it evolved as one of the leaders of the Tunisian tourism industry. With its 4 branches (Tunis, Hammamet, Sousse and Djerba), dts Tunisia is able to provide the best service in the different regions, cities and resorts.

In 2017, dts Tunisia launched 'Travel Square', a commercial label created to promote local tourism and to satisfy the high demand in tourism: hotel bookings, outgoing tourism, ticketing services, seminars and various excursions.

Travel Square aims to rank among 5 of the best Tunisian travel agencies thanks to a group synergy at an international level and the strong brand image that DER Touristik conveys in the European tourism market. Last but not least, the main reason for dts Tunisia's success is a motivated and dedicated team.

DMC SUSTAINABILITY

Unspoiled nature, magnificent cultural monuments and stable social conditions. Travellers expect to arrive into beautiful, clean and safe destinations. More than in any other industry, it is therefore in everyone's interest to preserve the habitats of the people as well as the natural and cultural treasures in the vacation countries. The DMC Network supports the creative power of sustainable tourism.

Companies ready to get to work towards sustainability will therefore score better on customer satisfaction, staff motivation and business efficiency with positive effects for their competitive advantage. Sustainability management is all about commitment and consistent sustainable business practices. This includes products, how you monitor and manage impacts, and how you support your suppliers on their road to sustainability.

COMMITTED TO THE WORLD

Sustainability is an essential part of the DER Touristik Group's and the DMC's corporate philosophy. All activities are therefore bundled under the umbrella of the sustainability programme "Committed to the world". The fields of action in which we assume responsibility and develop appropriate measures include:

- Ensuring customers awareness
- Promoting animal welfare
- Protecting children
- Protecting the environment
- Providing a fair working environment and employing qualified staff
- Providing economic benefits to local communities
- Respectful in encounters with local traditions
- Social commitment (e.g. DER Touristik Foundation)

DESIGNING SUSTAINABLE TRAVEL OFFERINGS

Travelers are increasingly paying attention to whether their trip is environmentally and socially friendly. The number of sustainably operating hotels in the range of DER Touristik Tour operators is being successively expanded and the development of sustainable travel products is constantly being driven forward through respective sustainability requirements.

Our partners are having their hotels certified under the internationally acknowledged certification schemes of the Global Sustainable Tourism Council. Requirements assessed as part of the GSTC acknowledged certification schemes include economical use of electricity and water, reduction of environmental pollution, fair working conditions for employees, and cooperation with the local population and enterprises, for example when it comes to buying food or obtaining handicraft services.

Not only our partners but also our own DMCs make great efforts in managing their business sustainably. Since 2020 Go Vacation Sri Lanka is Travelife certified.

The amount of work behind Go Vacation's certification is shown by a number: Go Vacation Sri Lanka had to meet more than 160 requirements for certification. These include criteria of ISO 26000, an internationally recognized standard for responsible business practices, with provisions for the protection of employees and the environment.

"The issue of sustainability is becoming increasingly important to many of our guests. We have made great efforts to meet these requirements, as well as our own. This highest award from Travelife makes us very proud and shows that we are on the right track", says Grosse, Tim, General Manager Go Vacation Sri Lanka.

His agency is, among other things, a partner of regional environmental protection and tree-planting projects and now largely dispenses with the use of disposable plastic in its own round trip offers.

Certified sustainability you can trust in – that is the goal of the cooperation between DER Touristik and its many business partners: tour operators, hotels, destination management companies (DMCs) and many others. Our Asian, African and American DMCs are certified in accordance to even this sustainability criteria. More certified European companies are to follow until 2025.

DER Touristik Group and the DMC Network thus works closely with external certification systems for sustainable tourism. Here we bring together various hotel and industry partners with representatives of civil society and international organisations.

As part of the dedicated programme of activities supporting environmental conservation, it also organized a "Go Green" beach cleaning day in August 2019.

As part of an ongoing campaign to encourage environmental awareness, our DMC in Indonesia provides round-trip guests with reusable BPA-free plastic water bottles that can be refilled at partner hotels, a cotton shoulder bag and leaflet promoting corporate ecological objectives.

We are committed for a sustainable environmental protection, while strengthening our economy and respecting local community.

Smiling Gecko

PROTECTING BIODIVERSITY

Millions of visitors annually and a global network of agencies in the holiday regions: As a globally operating tourism company, DER Touristik takes its responsibility towards travel destinations (local people and environment) seriously. "People give us their hospitality, in return they should benefit from the opportunities that tourism offers them. In this respect, we aim to use tourism as a motor to promote social and economic development in less developed countries and to protect the diversity of our earth," explains Sören Hartmann, CEO of the DER Touristik Group and Chairman of the Board of the DER Touristik Foundation.

SOCIAL COMMITMENT

Social responsibility is very important to DER Touristik's sustainability goals. This was formally acknowledged in 2014 with the founding of the DER Touristik Foundation. The Foundation is especially committed to promoting the education of socially disadvantaged children and young people, the preservation of habitats and biodiversity, and the aiding of sustainable development initiatives.

Since 2014, the DER Touristik Foundation has implemented seventy-five projects in twenty-one countries and five continents in the areas of education, nature, and environmental protection.

EVERY PENNY COUNTS

Our projects around the world are implemented by the DER Touristik Foundation in close cooperation with other non-profit associations, institutions, foundations, and aid organizations in local communities. Hundred percent of every donation goes directly to the projects. Every cent is purposefully and effectively used on site.

In the following, we would like to present two of 16 new projects DER Foundation supported in 2020. We are proud to be part of these unique ideas and to support animal welfare in South Africa and the sector of education in Cambodia.

CAMBODIA: SMILING GECKO (EDUCATION)

DER Touristik Foundation supports the Smiling Gecko project, which provides qualified education to young and socially disadvantaged Cambodians. Located in the countryside about 60 km northwest of Phnom Penh, the farm of Smiling Gecko is a holistic social project. Young locals receive professional training at the Farmhouse Smiling Gecko to equip them for jobs in the tourism industry. For all beneficiaries, the training is a chance to escape poverty and to live safe and independent lives.

SOUTH AFRICA – “BLACK MAMBAS” (EDUATION AND ANIMAL WELFARE)

About 13,000 rhinos live in South Africa's largest wildlife sanctuary, Kruger National Park, where poaching is highest in the world. This was why the anti-poaching unit the Black Mambas was founded in 2013 by Transfrontier Africa. The unit is made up of thirty-three young women from different local communities. The DER Touristik Foundation supports a refresher course for the Black Mambas so the women can retain their status as wildlife experts. With this funding, the DER Touristik Foundation is pursuing two goals: protecting wild animals from the increasing threat of poaching and helping young women in South Africa live dignified and economically independent lives.

The DER Touristik Foundation also supports environmental education programs in neighboring schools around the Greater Kruger National Park. Young people between the ages of twelve and fifteen receive an hour-long introductory lesson on nature and animal protection by the Black Mambas per week and can apply this knowledge during trips to the Kruger National Park.
